

AutoZone 4th Quarter Same Store Sales Increase 21.8%

September 22, 2020

4th Quarter EPS of \$30.93 Annual Sales of \$12.6 Billion

MEMPHIS, Tenn., Sept. 22, 2020 (GLOBE NEWSWIRE) -- AutoZone, Inc. (NYSE: AZO) today reported net sales of \$4.5 billion for its fourth quarter (16 weeks) ended August 29, 2020, an increase of 14.0% from the fourth quarter of fiscal 2019 (17 weeks). Excluding sales from the additional week included in last year's quarter, adjusted sales were up 21.2%. Domestic same store sales, or sales for stores open at least one year, increased 21.8% for the quarter. Same store sales are computed on a 16-week basis.

"As a result of the COVID-19 global pandemic, our primary focus has been and continues to be to protect the health and wellness of our customers and AutoZoners. I'm very proud of the steps our team has taken in this regard and I'm very appreciative of the phenomenal efforts of our AutoZoners who have continued to provide exceptional service to our customers throughout this entire extraordinary season! In recognition of their exceptional efforts and to provide them with much needed flexibility, we provided additional paid-time off for all eligible full and part-time hourly AutoZoners at the beginning of the pandemic. This quarter, we extended the same benefit to our Store Managers and distribution center Advisors, each of whom have been on the front line, supporting their teams and managing through an enormous amount of change. While we are very pleased with our performance, we know that the safety of our customers and AutoZoners along with our strong performance would not have been possible without the tremendous efforts of all AutoZoners across the organization," said Bill Rhodes, Chairman, President and Chief Executive Officer.

Net income for the quarter increased \$175.2 million, or 31.0% over last year's quarter to \$740.5 million, while diluted earnings per share increased 36.9% to \$30.93 per share from \$22.59 per share in the year-ago quarter. Operating profit increased 30.4% to \$1.0 billion. Excluding the additional week in the fourth quarter of 2019, adjusted net income for the quarter increased 41.2% over the previous year, adjusted diluted earnings per share increased 47.6% and adjusted operating profit increased 40.4%.

For the quarter, gross profit, as a percentage of sales, was 53.1% (versus 53.4% for last year's quarter). The decrease in gross margin was attributable to lower merchandise margins driven primarily by a shift in mix. Operating expenses, as a percentage of sales, were 30.7% (versus 33.8% for last year's quarter), with leverage primarily due to higher sales volumes.

For the fiscal year ended August 29, 2020, sales were \$12.6 billion, an increase of 6.5% from the prior year, while domestic same store sales were up 7.4% for the year. Same store sales are computed on a 52-week basis. Gross profit, as a percentage of sales, was 53.6% versus 53.7%. The decrease in gross margin was primarily attributable to lower merchandise margins driven primarily by a shift in mix. Operating expenses, as a percentage of sales, were 34.5% versus 35.0%. The reduction in expenses as a percent of sales was primarily due to leverage from higher sales growth, partially offset by \$83.9 million of costs incurred in response to COVID-19. For fiscal 2020, net income increased 7.2% to \$1.7 billion and diluted earnings per share increased 13.4% to \$71.93 from \$63.43. Last year's net income and diluted earnings per share benefitted from an additional week of sales. Return on invested capital net of average excess cash, which ended the year at \$1.6 billion, finished at 38.1%.

Due to the uncertainty caused by the COVID-19 global pandemic, AutoZone did not repurchase any shares during the quarter. For the fiscal year, the Company repurchased 826 thousand shares of its common stock for \$930.9 million, at an average price of \$1,127 per share. At year end, the Company had \$796 million remaining under its current share repurchase authorization.

The Company's inventory increased 3.6% over last year's quarter, driven by increased product placement and new stores. Inventory per store was \$683 thousand versus \$674 thousand last year and \$685 thousand last quarter. Net inventory, defined as merchandise inventories less accounts payable, on a per location basis, was a negative \$104 thousand versus negative \$85 thousand last year and negative \$56 thousand last quarter.

"I would like to congratulate and thank our entire organization for the results delivered this quarter and fiscal year. We set many modern era records during our fourth quarter including record same store sales of 21.8%, record commercial sales per program per week of \$12,200, record adjusted earnings before interest and taxes growth of 40.4% and record quarterly operating cash flow of \$1.4 billion. During the quarter, our same store sales growth was very consistent, generally increasing twenty-one to twenty-seven percent per week. During the last four weeks of the quarter, following the expiration of the enhanced unemployment benefits provided by the Federal Government, our same store sales increased 16.5%. As we begin fiscal 2021, there continues to be significant uncertainty but our team has proven that they are nimble and quickly able to adapt to this ever changing environment and provide exceptional service to our customers," said Rhodes.

During the quarter ended August 29, 2020, AutoZone opened 49 new stores in the U.S., 11 stores in Mexico and five stores in Brazil. At our fiscal year end, the Company had 5,885 stores in the U.S., 621 stores in Mexico and 43 stores in Brazil for a total count of 6,549.

AutoZone is the leading retailer and a leading distributor of automotive replacement parts and accessories in the Americas. Each AutoZone store carries an extensive product line for cars, sport utility vehicles, vans and light trucks, including new and remanufactured automotive hard parts, maintenance items, accessories, and non-automotive products. Many stores also have a commercial sales program that provides commercial credit and prompt delivery of parts and other products to local, regional and national repair garages, dealers, service stations and public sector accounts. We also have commercial programs in Mexico and Brazil. AutoZone also sells the ALLDATA brand diagnostic and repair software through www.alldatac.com. Additionally, we sell automotive hard parts, maintenance items, accessories and non-automotive products through www.autozone.com. Additionally, we sell automotive hard parts, maintenance items, accessories and non-automotive products through www.autozone.com. We also provide product information on our Duralast branded products through www.duralastparts.com. AutoZone does not derive revenue from automotive repair or installation.

AutoZone will host a conference call this morning, Tuesday, September 22, 2020, beginning at 10:00 a.m. (EDT) to discuss its fourth quarter results. This call is being web cast and can be accessed, along with supporting slides, at AutoZone's website at www.autozone.com and clicking on Investor Relations. Investors may also listen to the call by dialing (210) 839-8923 and entering the participant passcode 9697984. In addition, a telephone replay will be available by dialing (203) 369-1211 through October 22, 11:59 pm (EDT).

This release includes certain financial information not derived in accordance with generally accepted accounting principles ("GAAP"). These non-GAAP measures include adjusted results to exclude the additional week in the prior year's fourth quarter and adjustments to reflect return on invested capital, adjusted debit and adjusted debit to EBITDAR including adjustments for deferred tax liabilities. The Company believes that the presentation of these non-GAAP measures provides information that is useful to investors as it indicates more clearly the Company's comparative year-to-year operating results, but this information should not be considered a substitute for any measures derived in accordance with GAAP. Management targets the Company's capital structure in order to maintain its investment grade credit ratings and manages cash flows available for share repurchase by monitoring cash flows before share repurchases, as shown on the attached tables. The Company believes this is important information for the management of its debt levels and share repurchases. We have included a reconciliation of this additional information to the most comparable GAAP measures in the accompanying reconciliation tables.

Certain statements contained in this press release constitute forward-looking statements that are subject to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements typically use words such as "believe," "anticipate," "should," "intend," "plan," "will," "expect," "estimate," "project," "positioned," "strategy," "seek," "may," "could," and similar expressions. These are based on assumptions and assessments made by the Company's management in light of experience and perception of historical trends, current conditions, expected future developments and other factors that the Company believes to be appropriate. These forward-looking statements are subject to a number of risks and uncertainties, including without limitation: product demand; energy prices; weather; competition; credit market conditions; cash flows; access to available and feasible financing; future stock repurchases; the impact of recessionary conditions; consumer debt levels; changes in laws or regulations; war and the prospect of war, including terrorist activity; the impact of public health issues, such as the COVID-19 pandemic; inflation; the ability to hire, train and retain qualified employees; construction delays; the compromising of confidentiality, availability or integrity of information, including cyber-attacks; historic growth rate sustainability; downgrade of the Company's credit ratings; damage to the Company's reputation; challenges in international markets; failure or interruption of the Company's information technology systems; origin and raw material costs of suppliers; disruption in the Company's supply chain; impact of tariffs; anticipated impact of new accounting standards; and business interruptions. Certain of these risks and uncertainties are described in more detail in the "Risk Factors" section contained in Item 1A under Part 1 of the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2019 and in our other SEC filings. These Risk Factors should be read carefully. However, it should be understood that it is not possible to identify or predict all such risks and other factors that could affect these forward-looking statements. Forward-looking statements are not guarantees of future performance, and actual results, developments and business decisions may differ from those contemplated by such forward-looking statements, and events including, but not limited to, those described above could materially and adversely affect the Company's business. Forward-looking statements speak only as of the date made. Except as required by applicable law, we undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Actual results may materially differ from anticipated results.
