AutoZone 1st Quarter Same Store Sales Increase 4.6%; EPS Increases 24.0% to \$4.68

MEMPHIS, Tenn., Dec. 6, 2011 (GLOBE NEWSWIRE) -- AutoZone, Inc. (NYSE:AZO) today reported net sales of \$1.9 billion for its first quarter (12 weeks) ended November 19, 2011, an increase of 7.4% from the first quarter of fiscal 2011 (12 weeks). Domestic same store sales, or sales for stores open at least one year, increased 4.6% for the quarter.

Net income for the quarter increased \$19.0 million, or 11.1%, over the same period last year to \$191.1 million, while diluted earnings per share increased 24.0% to \$4.68 per share from \$3.77 per share in the year-ago quarter.

For the quarter, gross profit, as a percentage of sales, was 51.1% (versus 50.7% for last year's quarter). The improvement in gross margin was attributable to lower distribution costs on higher sales (23 bps), lower shrink expense (18 bps) and slightly higher merchandise margins. Operating expenses, as a percentage of sales, were 33.4% (versus 33.6% last year). The improvement in operating expenses, as a percentage of sales, was due to lower incentive compensation (33 bps), favorable legal expense (32 bps) and leverage from higher sales volumes. This leverage was partially offset by higher self insurance costs (51 bps).

Under its share repurchase program, AutoZone repurchased 954 thousand shares of its common stock for \$310 million during the first quarter, at an average price of \$325 per share. At quarter end, the Company had \$659 million remaining under its current share repurchase authorization.

The Company's inventory increased 7.2% over the same period last year, driven by new stores and continued strategic investments in parts assortment. Inventory per store was \$524 thousand versus \$508 thousand last year, an increase of 3.0%.

"After three years of impressive financial performance, we are pleased to begin fiscal 2012 with strong quarterly results. This past quarter marked our twelfth consecutive quarter of 20% growth in earnings per share and our twenty-first consecutive quarter of double digit growth. Our 4.6% same store sales and 22.6% growth in Commercial sales are both testaments to our organization's efforts to continually improve and further validation of our strategies. We continue to execute on our '1Team *Driving our Future'* operating theme for 2012. Our financial success continues to be the direct result of the tremendous contributions of our more than 65,000 dedicated AutoZoners, and I am convinced it is their dedication to helping our customers that differentiates us from our competition and drives our successes. We remain focused on our disciplined approach of growing operating earnings while efficiently utilizing our capital," said Bill Rhodes, Chairman, President and Chief Executive Officer.

During the quarter ended November 19, 2011, AutoZone opened 17 new stores in the U.S. and 2 new stores in Mexico. As of November 19, 2011, the Company had 4,551 stores in 48 states, the District of Columbia and Puerto Rico in the U.S. and 281 stores in Mexico for a total store count of 4.832.

This release includes certain financial information not derived in accordance with generally accepted accounting principles ("GAAP"). These non-GAAP measures include return on invested capital, adjusted debt, adjusted debt to EBITDAR, and cash flow before share repurchases. The Company believes that the presentation of these non-GAAP measures provides information that is useful to investors as it indicates more clearly the Company's comparative year-to-year operating results, but this information should not be considered a substitute for any measures derived in accordance with GAAP. Management targets the Company's capital structure in order to maintain its investment grade credit ratings and manages cash flows available for share repurchase by monitoring cash flows before share repurchases, as shown on the attached tables. The Company believes this is important information for the management of its debt levels and share repurchases. We have included a reconciliation of this additional information to the most comparable GAAP measures in the accompanying reconciliation tables.
